

Advancing Business Through Information Technology Since 1986

Our bright ideas  
work hard for you.

# Lighting a Pathway to Your Success

## Who We Are

Since 1986 Bay Systems has been creating innovative IT solutions for our clients in the government and private sectors. We base our longevity in the rapidly changing IT consulting business on the way we approach every client opportunity. **We operate as your business partner. We treat your organizational objectives as our own. And we work hard to ensure your success.**

Bay Systems has successfully developed and deployed web-based solutions for clients

with many diverse needs. Our expertise with developing large database solutions has enabled our clients to maintain continuous, high volume operations while meeting the challenges of an ever-changing business environment.

Whether it is developing system and software solutions or managing projects, Bay Systems is committed to customer satisfaction and the delivery of quality services. Partnering with Bay Systems presents a win-win solution to the problems facing your organization.

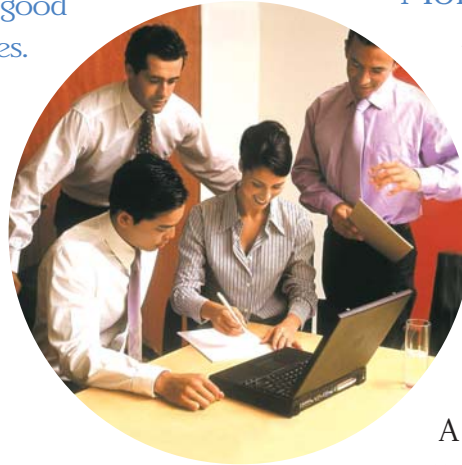

# Technology Services to Ensure Operational Effectiveness

“Bay Systems consistently provides good service with prompt attention to issues. We feel fortunate to be able to work with a company [Bay Systems] and group of individuals that have been such great business partners over so many years.”
