

Advancing Healthcare Through Information Technology Since 1986

Our bright ideas  
work hard for you.

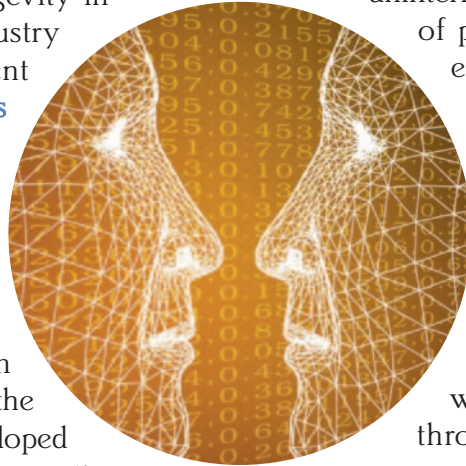

# Lighting a Pathway to Your Success

## Who We Are

Since 1986 Bay Systems has been creating innovative IT solutions for our healthcare clients in government and private sectors. We base our longevity in the rapidly changing healthcare industry on the way we approach every client opportunity. **We operate as your business partner. We treat your organizational objectives as our own. And we work hard to ensure your success.**

With the Florida Immunization Project (Florida SHOTS), Bay Systems became the solutions provider who built an immunization registry that addressed the needs of 67 unique counties and developed a centralized system for tracking and reporting on every level— from county to federal.

As the Florida SHOTS program was being created and refined, Bay Systems continued to provide uninterrupted service to meet the diverse needs of patients, doctors, nurses, government employees and public health officials.

Bay Systems developed a web-based interface solution for the Registry that is remarkably user-friendly with controlled access for authorized users. The win-win outcome means that today Florida health providers can access immunization records directly at [www.flshots.com](http://www.flshots.com) or in the background through clinic management software.

# Technology Services to Ensure Operational Effectiveness

“I applaud the health care professionals who participated in Florida SHOTS. Their use of this remarkable system helps protect Florida’s Children.”

– John O. Agunobi, M.D., M.B.A., M.P.H.,  
Secretary of Health & State Health Officer\*

Additional healthcare-based technology solutions we have developed at Bay Systems include:

- Billing
- Case Management
- Immunization Systems & Networks
- Disease Outbreak Tracking & Reporting
- Health Screening
- Patient Registration & Scheduling

## More Projects Than People?

With deadlines looming and more projects on the horizon, it may feel like your human resources are stretched to capacity. As your IT partner, Bay Systems will be there every step of the way. We will ensure you successfully achieve the desired outcomes as quickly as possible to keep your organization on track with its mission and purpose. A partnership with Bay Systems means you have a team of technology experts ready to augment your staff.

We invite you to put our bright ideas to work for you!
